ALBA MINERALS LTD.
NOTES TO THE FINANCIAL STATEMENTS

As at and for the periods ended March 31, 2018 and 2017
(Unaudited - Expressed in Canadian Dollars)

1. NATURE AND CONTINUANCE OF OPERATIONS

Alba Minerals Ltd. (the "Company"), incorporated in British Columbia, is a public company listed on the TSX Venture Exchange (the "Exchange") under the symbol AA. The address of the Company's corporate office and its principal place of business is 304 - 700 West Pender Street, Vancouver, British Columbia, Canada.

The Company is in the exploration stage and its principal business activity is the sourcing and exploration of mineral properties in North and South America. The Company is in the process of exploring and evaluating its mineral properties and has not yet determined whether these properties contain ore reserves that are economically recoverable. The recoverability of amounts shown for mineral properties and related capitalized exploration expenditures is dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the underlying mineral claims, the ability of the Company to obtain necessary financing to complete the development and upon future profitable production or proceeds from the disposition thereof.

These consolidated financial statements are prepared on a going concern basis, which assumes that the Company will continue its operations for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. The Company has incurred losses since its inception and has an accumulated deficit of \$11,597,023 at March 31, 2018 which has been funded primarily by issuance of shares. The Company's ability to continue its operations and to realize assets at their carrying values is dependent upon obtaining additional financing or maintaining continued support from its shareholders and creditors, and generating profitable operations in the future. The Company has been successful in the past in raising funds for operations by issuing shares but there is a material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern. If the Company is unable to raise the necessary capital and generate sufficient cash flows to meet obligations as they come due, the Company may have to reduce or curtail its activities or obtain financing at unfavorable terms. Furthermore, failure to continue as a going concern would require the Company's assets and liabilities be restated on a liquidation basis which would differ significantly from the going concern basis. These consolidated financial statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary should the Company be unable to continue as a going concern.

These consolidated interim financial statements were authorized for issue on May 30, 2018 by the directors of the Company.

ALBA MINERALS LTD.
NOTES TO THE FINANCIAL STATEMENTS

As at and for the periods ended March 31, 2018 and 2017
(Unaudited - Expressed in Canadian Dollars)

2. BASIS OF PRESENTATION AND STATEMENT OF COMPLIANCE

These consolidated interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) applicable to the preparation of interim financial statements, including International Accounting Standards (“IAS”) 34, Interim Financial Reporting. These consolidated interim financial statements do not include all of the information required for full annual financial statements and should be read in conjunction with the Company’s audited annual financial statements for the year ended December 31, 2017, which have been prepared in accordance with IFRS.

These consolidated financial statements include the accounts of the Company and its 100% wholly owned subsidiary, Acrex Minerals (U.S.) Inc. (“Acrex US”). Acrex US was incorporated in the State of Nevada. Inter-company balances and transactions, including unrealized income and expenses arising from inter-company transactions, are eliminated on consolidation.

These consolidated interim financial statements have been prepared on the historical cost basis. The presentation and functional currency of the Company is the Canadian dollar.

3. SIGNIFICANT ACCOUNTING POLICIES

a) Significant accounting judgments, estimates and assumptions

The preparation of the Company’s consolidated interim financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities and contingent liabilities at the date of the consolidated interim financial statements and reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management’s experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Critical judgments in applying accounting policies:

The following are critical judgments that management has made in the process of applying accounting policies and that have the most significant effect on the amounts recognized in the consolidated interim financial statements:

- the determination that the Company will continue as a going concern for the next year.

b) Recent accounting pronouncements

New accounting standards issued but not yet effective

The Company has reviewed new and revised accounting pronouncements that have been issued but are not yet effective. The Company has not early adopted any of these standards and is currently evaluating the impact, if any, that these standards might have on its financial statements.

Rainbow Canyon, Nevada – By an Agreement dated March 25, 2011, the Company purchased non-patented mineral claims and staked additional claims during the same year, in Washoe County, Nevada, USA. The purchase price for the claims was US\$125,000 (CAN\$123,719). A 3% Net Smelter Return (“NSR”) is reserved to the vendor subject to the Company’s right to purchase back up to a 2% NSR by the payment of \$500,000 for each 1% NSR interest purchased.

On February 8, 2017, the Company entered into an option agreement with Astorius Resources Ltd. (“Astorius”) to sell 100% interest in the Rainbow Canyon gold property. To complete the exercise of the option, Astorius must pay an aggregate of \$80,000 cash by June 15, 2018. \$60,000 was received from Astorius during the year ended December 31, 2017.

4. MINERAL PROPERTIES EXPLORATION, *continued*

During the year ended December 31, 2017, the Company entered into an agreement with Astorius

for the disposition of the Rainbow Canyon property; therefore an impairment of \$106,573 was recognized.

Clayton Valley, Nevada – On December 5, 2016, the Company entered into an interim agreement to acquire up to a 50% interest in mineral claims in Clayton Valley, Esmeralda County, Nevada. The Agreement also includes claims in San Bernardino County, California. A final option agreement (the “Agreement”) was signed on February 8, 2017 with Noram Ventures Inc. (“Noram”) and Green Energy Inc. (“Green Energy”) (a wholly owned subsidiary of Noram).

The first part of the Agreement is an option to purchase a 25% interest in the property for \$255,000 paid to Green Energy as follows:

Requirement deadline	Cash
(i) Upon signing the letter of intent	\$ 127,500 (paid)
(ii) Completion of a drilling program by Green Energy Inc.	127,500 (paid)
	\$ 255,000

The second part of the Agreement grants to the Company an option to acquire a further 25% interest in the property by making a series of payment totaling \$845,000 to Green Energy in 2017.

On January 8, 2018, the parties amended the second part of the agreement, granting the Company the option to acquire a further 25% interest in the property by making a cash payment of \$350,000 prior to March 1, 2018. Due to delays in the commencement of drilling, this agreement is currently under negotiation.

Quiron II, Argentina - On August 2, 2017, the Company signed an option agreement to acquire 100% of the Quiron II lithium project, a prospective exploration property in the Pocitos Salar, Province of Salta, Argentina. On August 3, 2017, the Company received Exchange approval.

The final terms of the definitive agreement for the Company to acquire 100% interest in the Quiron II property are as follows:

The Company issued 5,791,500 common shares pursuant to the exercise of warrants for the price at \$0.06 and \$0.15 per share for total cash proceeds of \$545,715.

Share-based Payments Reserve

Share-based payment reserve records items recognized as share-based compensation expense and other share-based payments until such time as the stock options or warrants are exercised, at which time the corresponding amount will be transferred to share capital.

6. STOCK OPTIONS

Under the Company's stock option plan, the exercise price of each option is determined by the Board, subject to the pricing policies of the Exchange. Options vest immediately when granted and expire five years from the date of the grant, unless the Board establishes more restrictive terms.

The aggregate number of shares issuable pursuant to options granted under the plan is limited to 10% of the Company's issued shares at the time the options are granted. The aggregate number of options granted to any one optionee in a 12-month period is limited to 5% of the issued shares of the Company.

On November 9, 2017, the Company granted 3,000,000 share purchase options to directors, officers and consultants of the Company. The share purchase options are exercisable at \$0.09 per share for a period of five years, expiring November 9, 2022. All options granted are in accordance with the company's 10-per-cent rolling stock option plan. The estimated fair value was calculated for the options using the Black-Scholes pricing model based on the following assumptions: risk-free interest rate of 1.59%, expected life of 5 years, no annual dividends, expected volatility of 210% and a forfeiture rate of 0%. During the year ended December 31, 2017, the Company recognized \$235,372 in share based compensation relating to this grant.

9. CAPITAL MANAGEMENT

The Company's objectives for the management of capital are to safeguard the Company's ability to continue as a going concern, including the preservation of capital, and to achieve reasonable returns on invested cash after satisfying the objective of preserving capital.

The Company considers its cash to be its manageable capital. The Company's policy is to maintain sufficient cash and deposit balances to cover operating costs over a reasonable future period. The Company accesses capital markets as necessary and may also raise additional funds where advantageous circumstances arise.

The Company currently has no externally-imposed capital requirements. There was no change to the Company's approach to capital management during the period.

10. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

As at March 31, 2018 and December 31, 2017, the Company's financial instruments consist of cash and accounts payable and accrued liabilities.

In management's opinion, the Company's carrying values of cash and accounts payable and accrued liabilities approximate their fair values due to the immediate or short term maturity of these instruments.

The Company classifies the fair value of these financial instruments according to the following hierarchy based on the amount of observable inputs used to value the instrument:

Level 1 – Quoted prices are available in active markets for identical assets or liabilities as of the reporting date. Active markets are those in which transactions occur in sufficient frequency and volume to provide pricing information on an ongoing basis. Cash is classified under Level 1.

Level 2 – Fair value measurements are those derived from inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (derived from prices). The Company does not have any financial instruments classified under Level 2.

Level 3 – Valuations in the level are those with inputs for the asset or liability that are not based on observable market data. Accounts payable and accrued liabilities are classified under Level 3.

10. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT, *continued*

The Company's financial instruments are exposed to the following risks:

Credit Risk

Credit risk is the risk of an unexpected loss if a customer or third party to a financial instrument fails to meet its contractual obligations. The Company's cash is held at a large Canadian financial institution in interest bearing accounts, and therefore the Company is subject to low credit risk.

Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due.

The Company manages liquidity risk through its capital management as outlined in Note 6 to the financial statements.

Market Risk

Market risk is the risk of loss that may arise from changes in market factors such as interest rates, commodity and equity prices and foreign exchange rates.

The Company does not believe it is exposed to significant market risk.

Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Company does not believe it is exposed to significant interest rate risk.

Price Risk

The Company is not exposed to price risk.

Currency Risk

As at March 31, 2018, the Company's expenditures are predominantly in Canadian dollars, and any future equity raised is expected to be predominantly in Canadian dollars. As a result, the Company does not believe it is exposed to any significant currency risk.
